VGS™2010 FC25P

Piab VGS™ – A product design where different suction cups are integrated with vacuum cartridges based on the patented COAX® technology. The “vacuum gripper” makes selection, sizing and installation of a vacuum system easier. With a VGS™ you will enjoy the benefits of a more cost-efficient and reliable... decentralized vacuum system.

- Patented COAX® technology.
- Suitable for lifting small objects and narrow parts as well as also slightly domed surfaces.
- Thanks to good friction of the rubber material the cups can withstand high shear forces at rapid acceleration.
- The suction cups have cleats that prevent thin objects from being disfigured.
- Available with a two-stage COAX® cartridge MICRO. Configurable to your specific needs. Choose Bi for low feed pressure, Si for high vacuum flow, Xi for extra vacuum and Ti at 0.4/0.6 MPa for extra capacity/dirt tolerance..
